

# The Complete Circuit-Finding Tool

CS-2072

## Making circuit breaker identification faster, safer and easier.

Greenlee proudly introduces two new circuit breaker finders to the circuit testing family. The CS-2072 Circuit Breaker Finder and CS-2072K Circuit Breaker Finder Kit provide the electrical worker with two choices when seeking a product to identify circuit breakers. The CS-2072 Circuit Breaker Finder is a compact two piece design where the receiver conveniently snaps into the transmitter for easy storage. The CS-2072 Circuit Breaker Finder quickly and easily allows one person to determine which breaker controls a specific circuit. Once the correct breaker is identified, the electrical worker can turn off power and work on just that circuit without turning off power to other circuits. The CS-2072 Circuit Breaker Finder is perfect for residential and light commercial applications.

For the electrical worker who is looking for more versatility, the CS-2072K Circuit Breaker Finder Kit is the solution. The CS-

2072K Circuit Breaker Finder Kit is a complete circuit-finding tool fit for locating circuit breakers in residential, commercial and industrial environments. The CS-2072K Circuit Breaker Finder Kit comes with the transmitter, receiver, clips, light socket adapter, blades and plug adapter. The blades included with the kit allow easy access to most outlets, including 230 and 240 volts. The receiver has automatic sensitivity adjustment which means no knobs or dials! The electrical worker will easily know when the receiver has identified the correct breaker because a green LED will light up indicating a positive match.

With so many options in circuit breaker finders, why not select the CS-2072 Circuit Breaker Finder or CS-2072K Circuit Breaker Finder Kit. Both items are backed by Greenlee's Lifetime Limited Warranty.

## PRODUCT FEATURES

### CS-2072K

- Convenient kit for residential circuit finding applications.
- Use with 50 - 60 Hz service from 80 - 277 Volts.
- Accessories for connecting transmitter to different outlet types.
- Compact receiver accurately locates AC breakers.
- Receiver belt clip for easy transport.
- Lifetime Limited Warranty.

### CONTENTS/ACCESSORIES

- (1) 120 VAC adapter plug
- (1) Light socket adapter
- (2) Blades
- (2) Clips
- (1) 9V battery
- (1) Carrying case

### CS-2072

- Transmitter and receiver snap together for convenient storage.
- Compact receiver accurately locates AC breakers.
- Receiver belt clip for easy transport.
- Lifetime Limited Warranty.

### CONTENTS/ACCESSORIES

- (1) 9V battery

## SPECIFICATIONS

### TRANSMITTER

**Voltage range** 110 - 120 V AC, 60 Hz

**Measurement Category:** CAT II 150 V (transmitter only)

### RECEIVER

Audible and visual circuit indicator

Power indicating LED

On/Off switch

Belt clip
