## **GREENLEE INTRODUCES NEW ADDITION TO CLAMP METER FAMILY** *CM-410 combines two-features in one ergonomically efficient unit*

ROCKFORD, Ill. February 21, 2007 —Greenlee, a Textron company (NYSE: TXT), today announced the addition of CM-410 to the clamp-on meter to its family test and measurement products. The CM-410 carries a UL Cat III 600V rating, has a measuring capability up to 400 amps AC and 600 volts AC/DC and is designed for residential, commercial and industrial electrical contractors.

The compact CM-410 replaces Greenlee's CM-400, a 2-in-1 300A clamp meter, with such features as: resistance measurement up to 20M resistance, data hold, an auto power off, an audible continuity check and a 2,000 count LCD panel for easy viewing.

"We developed the CM-410 so that electricians currently using the CM-400 don't have to worry about carrying around two parts for taking measurements," said Spring Zhao, product manager.

The CM-410 meets the latest industry safety standards and is backed by a lifetime limited warranty. The meter also comes with a durable carrying case for convenient storage.

For more information on the new CM-410, or other test and measurement products from Greenlee, a Textron company, call 1-800-435-0786 or visit [www.greenlee.com](http://www.greenlee.com).

Greenlee is known as a global leader in the professional tool category. The Rockford, Illinois-based company develops high quality innovative products distinguished by customer-driven design and differentiated by supply chain excellence. Greenlee also leverages its powerful brands such as Tempo, Fairmont, and Klauke in the electrical, construction and maintenance markets worldwide. More information is available at [www.greenlee.com](http://www.greenlee.com).
