PRESS RELEASE

GREENLEE LAUNCHES ITS FIRST-EVER OPEN JAW CLAMP METER *CSJ-100 makes AC current measurement easier*

ROCKFORD, Ill. February 21, 2007 — Greenlee, a Textron company (NYSE: TXT), today introduced its first-ever open jaw clamp meter, the CSJ-100. The CSJ-100 carries a Cat IV 600V and Cat III 1000V rating and has a measuring capability up to 200 amps AC. It's developed for residential, light-commercial and industrial electrical contractors.

"We developed the CSJ-100 with a rugged, slim, versatile and feature-rich design to make an electricians job faster, safer, and easier when taking AC current measurements especially in tight spaces," said Spring Zhao, product manager.

The CSJ-100 has an ergonomic body design and non-contact voltage detection (EF) function for electricians who are seeking quick verification of amperage or voltage. The CSJ-100 has a jaw opening that accommodates up to 0.63-inch in diameter conductors. Its detachable test leads fit in the back of the tester, allowing for effortless measurement and storage.

The meter also features resistance measurement up to 20M resistance, data hold, an auto power off, audible continuity and diode check. There's also a bright LED and audible alarm for non-contact voltage detection and a 2,000 count LCD panel for easy viewing. The CSJ-100 meets the latest industry safety standards and is backed by a lifetime limited warranty. The meter also comes with a durable carrying case for convenient storage.

For more information on the new CSJ-100, or other test and measurement products from Greenlee, a Textron company, call 1-800-435-0786 or visit www.greenlee.com.

Greenlee is known as a global leader in the professional tool category. The Rockford, Illinois-based company develops high quality innovative products distinguished by customer-driven design and differentiated by supply chain excellence. Greenlee also leverages its powerful brands such as Tempo, Fairmont, and Klauke in the electrical, construction and maintenance markets worldwide. More information is available at www.greenlee.com.

About Textron

Textron Inc. is a \$10 billion multi-industry company operating in 33 countries with approximately 37,000 employees in continuing operations. The company leverages its global network of aircraft, industrial and finance businesses to provide customers with innovative solutions and services. Textron is known around the world for its powerful brands such as Bell Helicopter, Cessna Aircraft, Jacobsen, Kautex, Lycoming, E-Z-GO and Greenlee, among others.
