PRESS RELEASE

GREENLEE ADDS TO FAMILY OF GLO AND FISH STIX
Two new Glo Stix offer more flexibility for wall and ceiling installations

ROCKFORD, Ill. January 22, 2007 — Greenlee, a Textron company (NYSE: TXT), has added two new products to its family of Glo and Fish Stix with the addition of the 540-6 and the 540-18 Glox Stix. Each new 5/32" diameter rod was developed for end-users doing installation work inside walls and ceilings in residential and light commercial applications where extra flexibility to fish in and other tight spaces is needed.

"These rods are more flexible than our 3/16-inch Glo Stix and significantly more flexible than our one quarter-inch Fish Stix," said Jim Eisele, senior product manager.

The 540-6 is a single 5/32" X 6' rod with a fixed bullet nose on both ends and is intended primarily for use inside walls or in other situations where a six-foot reach is adequate. The 540-18 consists of three 5/32" X 6' rods with threaded ends. These rods use the same accessories as Greenlee's other Fish and Glo Stix, such as the bullet nose, hook nose, and whisk. They can also be attached to other diameter Greenlee Fish Stix Glo Stix sections.

All Greenlee Fish Stix are manufactured from green 1/4" diameter fiberglass rods with a 6-1/2" minimum bend radius and are best suited for reaching long unsupported distances. The one 3/16" diameter Glo Stix are more flexible than the Fish Stix with a 4-1/4" bend radius. The most flexible rods are the new 5/32" diameter Glo Stix that have a 3-1/2" bend radius. All Fish Stix and Glo Stix have a 200-pound maximum pulling strength. All of the rods (except the 540-6) have sturdy steel threaded connectors on each end. The threads are the same on all rods, so different diameter rod sections can be combined easily for specific situations. Each Fish Stix and Glo Stix kit includes a bullet nose tip for pushing through insulated walls, under floors or above ceilings.

—more —

The 540-15, 540-12 and 540-24 also include a hook tip for hooking wires and pulling them into position.

For more information on these and other fishing products from Greenlee, a Textron company, call 1-800-435-0786 or visit www.greenlee.com.

Greenlee is known as a global leader in the professional tool category.
