

## ES25 Battery-Powered ACSR Cutter

### Cut Tough Steel Reinforced Cable With One Finger

The new Greenlee ES25 makes the task of cutting tough ACSR and other steel reinforced cables quick and easy. Simply place the jaw opening around the cable, swing the cutting blade into place, and then pull the trigger. The ES25 does the rest. ACSR type cables through 636 kcmil can be cut with the ES25. The ES25 is capable of making approximately 50 cuts of Grosbeak or 120 cuts of Merlin on one battery charge. And the ES25 is fast. Each cut takes about 8 seconds or less.

The forward/reverse lever and the trigger on the ES25 are all operated with one hand allowing the operator to position and steady the cable with the other hand. The rugged gear drive system assures long life and smooth operation. An integral circuit breaker protects the motor if the tool becomes overloaded.
